

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home.

PHILADELPHIA, Pa.—Do you wear glasses? Are you a victim of eye-strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read anything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read the fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of

many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Optona tablets. Drop one Optona tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Optona is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist and is one of the very few preparations I feel should be kept on hand for regular use in almost every family."—Adv.

TATEISHI GIVEN FIVE YEARS FOR SHOOTING MATE

Japanese Who Slew Paakahili Convicted of Second Degree Manslaughter

Convicted of second degree manslaughter after the jury had deliberated nearly two days, Takimi Tateishi, Japanese, who was charged with the murder of Oliver Paakahili, late second mate of the steamer Maui, today was sentenced by Circuit Judge Ashford to serve not less than five years at hard labor in Oahu prison.

Under the indeterminate sentence law Tateishi will be eligible for parole at the end of five years less commutation. If not paroled, however, he may be obliged to remain in prison for 10 years, the maximum term for the offense of second degree manslaughter. Paakahili was shot by Tateishi following a row over a gambling game. Tateishi's defense was self-defense, he having testified he shot Paakahili when the latter rushed at him with a knife.

In court this morning was the sad-faced wife of the defendant and about her on the benches played five of her six children. She exhibited no emotion as the interpreter explained to her husband that he would spend the next five years in prison. Before he was taken to prison, Tateishi conversed in low tones with his wife for several minutes and held and caressed his youngest child.

Tateishi was defended by Attorney William T. Rawlins. The prosecution was handled by Deputy City Attorney Will T. Carden.

SOME FINE PUBLICITY IS GIVEN TO HAWAII

An example of the splendid publicity which Hawaii is obtaining is to be found in the October issue of the Agents Bulletin, published at St. Louis, Mo. It consists of a full page of illustrations facing a page article entitled, "Hawaii Today and Yesterday." It is printed on heavy book paper and is singularly attractive.

The pictures used in making up the page of Hawaiian illustrations show Honolulu from the Oahu Country Club, outrigger canoes, a native fisherman with net, a landscape showing cocoanut palms with mountain and cloud background, the old barracks, a huki lau, Oahu Country Club links and a typical residence.

AN EXPERT ON COLDS

Comparatively few people realize that a cold is a signal of physical weakness.

To treat a cold with weakening physics, alcoholic syrups or drugged pills, may smother the cold but they also reduce the body powers still further and invite more serious sickness.

M'CANDLESS IS NOT IN FAVOR OF ANY BOND ISSUE

Talk is Bourbons Will Attack Murray's Plan to Get Money for Improvements

Talk in political and business circles and around the courts today is that the Democratic party is laying plans to attack the bond issue for water and sewer extensions and improvements that is proposed by Manager Harry E. Murray of the sewer and water departments.

If Murray's plan is approved by the supervisors and a plebiscite called, the voters will be called upon to cast their ballots for or against the issuance of bonds in the sum of \$180,000 for the proposed extensions and improvements. Those who profess to know say the Democrats will attack the proposed issue much in the same manner as they attacked the proposed issue that was a feature of the last election.

L. L. McCandless, who was Bourbon candidate for delegate, said today that, while he has heard of no general move on the part of the Democrats to oppose the project, he is personally opposed to "giving money to those who do not know how to spend it."

"We have got enough money without calling for a bond issue," asserts McCandless. "We have never enjoyed such prosperity as at the present time. There should be enough money from the taxes to pay the bills. I am in favor of sewer and water improvements; they are a necessity. But I believe that the money for such projects should be taken out of the general tax. What is being done with the income from the water works?"

Manager Murray has his petitions fairly well distributed throughout the various districts in which it is proposed to make the improvements. About 30 petitions will be distributed. He expects to have them signed and ready for presentation to the supervisors at the first meeting of the board in December.
